

Completed the river cleanup on Saturday from the H-40 Bridge to the mouth. A total of 11 people worked on the cleanup. Others assisted moving vehicles, picnic tables hosting the post cleanup picnic. Very minor debris between H-40 and the Snowmobile Bridge. Below the lower rapids we cleaned up about 5-8 blockages. Overall the amount of blockages were fairly minor. This was probably due largely to the mild winter and spring runoff. A great picnic was hosted by Jim and Tay MacMeeken. Once again no injuries and only a few sore muscles. Attached is a photo of our work crew and support personnel before we started at the H-40 jumping off point.
